OBSERVED SPECIMENS - What's the Purpose? TO CATCH CHEATERS!

September 1, 2008

Remember, as of 8/25/08, OBSERVED collections will be required, rather than optional for:

1. All "RETURN TO DUTY" drug tests.
2. All "FOLLOW-UP" drug tests.
3. Any of the above that are not observed will be required to be repeated.

Since the new DOT ruling, our office has fielded many calls regarding this matter. Please note: The person "observing" the drug screen collection, **MUST** be the same gender (Do not assume each clinic has both male & female employees).

In addition, we've been informed that some clinics charge extra fees for an "observed" specimen. Have any questions??? Please contact our office: Phone: 205-421-2085, Toll-Free: 800-367-6472; Fax: 205-421-2086; Email: info@occhealthsvcs.com
